About your Boiler Service

If you are a new customer, your first service may take place after 6 months of your agreement start date. We'll contact you by letter, email or text message to arrange your Boiler Service within your agreement period. We'll attempt to contact you three times and provide details of how you can get in touch to book your service. If you do not contact us and your Boiler Service isn't completed during your agreement period, you won't be eligible for a refund.

We aim to schedule services approximately every 12 months, however during periods of high demand (for example, during cold weather) we prioritise breakdowns and may need to rearrange your service.

Where safety defects are identified, the current Gas Industry Unsafe Situation Procedure will be followed. This may mean that the Boiler cannot be used until a problem we find is resolved.
